Code Requirements

Inspector Findings

Additional Information Collected During Inspection

Comments

HACCP of raw turkey breast conducted. Cooking temperature, cooling process, cold holding and freezer storage assessed. Operator to submit final logs to CCHD upon completion of thawing, reheating, hot holding of turkey to CCHD.
Correction of items cited on previous inspection assessed by interview: Operator has adjusted the way in which the refrigeration units are operated and food is held within these units. Reduced volume of food being stored on the refrigeration line implemented as well as using pans directly in contact with the unit as designed. Temperature logs of food stored on the line are being kept as well.
