

FRACTION SORT

This fraction sort will help your students organize and classify the different fractions. It will also help them compare the different fraction values.

This activity is perfect for math centers or for whole group instruction. It also works great as an assessment.

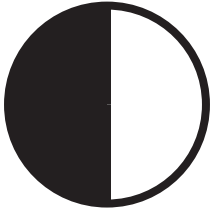

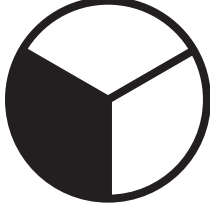

Have your students cut out the different fractions (page 3) and glue them on the Fraction Sort worksheet under the correct heading.

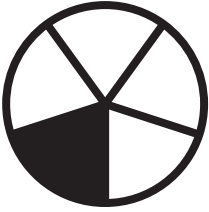

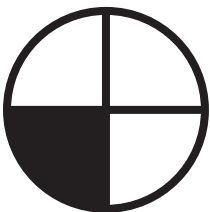

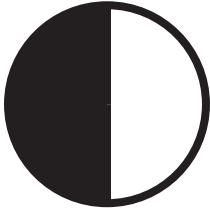

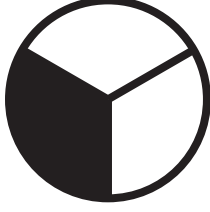

Name: _____ Date: _____

FRACTION SORT

$\frac{1}{2}$	$\frac{1}{3}$	$\frac{1}{4}$	$\frac{1}{5}$

	one fourth		one third
		one fifth	
	one half
